

***Bridging a linear analytical approach with possibility-based design thinking
to drive strategic, leading edge products and services.***

Innovative, results-driven business and rotational program development leader with broad global experience in financial planning and analysis as well as operations. Highly adaptable with ability to excel and communicate cross-culturally and proficiencies in English, French, and Italian. Earned praise as quick study and early contributor with ability to juggle rigorous workload. Demonstrated knowledge in energy and chemicals sectors. Completed MBA at Confidential University in June 2011.

Areas of Expertise

Analysis & Strategy – **Produced net positive carry of 3.5%** by using fundamental and technical analysis to spot trends and recommend investment in a structured oil-linked note.

Budgeting & Planning – **Shaved 15% off initial cost estimate** for \$2.5B global project through detailed analysis.

Process Improvement – **Saved time and money** by creating a standardized valuation template for all Investment Banking associates to utilize for client presentations, surpassing stress tests on various deals.

Professional Development

Master of Business Administration | 2011
Confidential University | Chicago, IL

Bachelor of Engineering, Electronics & Communication Engineering | 2006
Confidential University | Paris, France

Professional Experience

Finance Intern | Confidential University | London, UK | Summer 2010

Spearheaded preparation of 2011 Work Program & Budget for large-scale international project. Recognized for ability to quickly grasp operating fundamentals and identify key cost drivers of upstream oil project despite limited background. Collaborated with multi-national professional teams on multiple initiatives.

Major Contributions:

- Developed activity-based costing model to prepare and implement \$2.5B international budget.
 - Reduce initial cost estimates by 15% by executing critical, cross-disciplinary review of budget and technical work scope (drilling, well work, and subsurface) for international project.
 - Analyzed and presented plan to optimize workstreams, meet external and internal reporting obligations, and improve contract management for new Iraq business.
-

Select Projects (Part of MBA Coursework)

MBA Integration Project: Developed promotion and distribution strategies for branded generic drugs in emerging markets (2011).

International Business: Kraft's international expansion – Analyzed entry strategy, market structure and competitor Shares; recommended pricing and channel strategy (2010).
